

SHARE FRISBEE

This week, the children are learning about when Philip shared the good news of Jesus to the Ethiopian man.

This Bible story helps us to understand how the Holy Spirit gives us the power to share Jesus' love with others too. To help reinforce this concept, they will create their own paper frisbees. As they finish their crafts and throw their frisbees to each other, remind them that they can share Jesus with others just like how they can share their frisbees!

DIRECTIONS

PREP BEFORE SERVICE

1. Print cardstock printable.
2. Cut the circle, including the center, out of the cardstock printable.
3. Have the centers of the paper plates cut out, two plates per frisbee.
4. Have the printable, plates, glue and crayons prepared.

DURING THE SERVICE

1. Instruct the children to color their teaching objective discs and plate edges.
2. Have the children glue the edges of the two plates together. Be sure not to use too much glue.
3. Have the children then glue the paper disc to the top of the plate.
4. Allow time for plates to dry before showing them how to throw their frisbees.

SUPPLIES NEEDED

White glue

Scissors

Crayons

Cardstock printables

Paper plates

TEACHING OBJECTIVE

Because of the Holy Spirit's power, I can share my love for Jesus with others.
